

20 January 2009

HINTERHUBER & PARTNERS 2008 year in review

Innsbruck (Austria) – 20 January 2009 – Hans Hinterhuber, Chairman HINTERHUBER & PARTNERS, comments on the company's 2008 results and the outlook for the current year: "2008 was another good year for our company. We added one further German blue chip company to our client list with a successful project on corporate and business unit strategy. Also our pricing practice did well, with increasing number of consultancy engagements both in B2B as well as in B2C pricing."

On the outlook for 2009, Hans Hinterhuber comments: "The overall economy will contract in the current year, and the market for consultancy work will contract even stronger. For 2009 we expect stable or slightly increasing revenues in all our three areas – in our strategy practice, in our pricing practice, and in our leadership practice – which will be, given current economic conditions, quite likely a satisfactory result"
