### **HINTERHUBER & PARTNERS 2010 year in review**

Innsbruck (Austria) – 10 January 2011 – Hans Hinterhuber, Chairman HINTERHUBER & PARTNERS, comments on the company's 2010 results and the outlook for the current year: "2010 was an excellent year for our company. We published *Die 5 Gebote für exzellente Führung*, a book which was the result of a major study on what distinguishes excellent from less excellent business strategies. In addition, we continued our growth among DAX 30 customers and are very pleased to have added two German blue-chip companies to our client portfolio. Revenues grew by approximately 15%."

For 2011, Hans Hinterhuber says: "Hinterhuber & Partners will continue to grow, very likely stronger than in 2010."
